

We are proud to carry the ISO flag!!

Vakrangee is certified with ISO 9001:2008, ISO 27001:2013 and ISO 20000-1:2011.

ISO 27001:2013 Certification - Vakrangee is ISO 27001:2013 certified (Information Security Management System) company since 2009 which means that Vakrangee has been independently verified and awarded the most rigorous and internationally recognised and most prestigious information security standard available which committed to global standards for security best practice and for implementing and managing security controls that protect information assets. Vakrangee has demonstrated its commitment to Information Security Management, continuous improvement in Information Security standards, and signalled the further strengthening of its credentials as a managed service provider. Protecting information is a top priority for Vakrangee and ISO 27001:2013 certification ensuring the safety of the data is integral for the protection of the company, its customers and its partners. Vakrangee is serious about securing its valuable information assets by putting in place appropriate policies, procedures and controls to assess and treat risks to information security throughout the organisation.

The purpose of this international standard is to help organization establish and maintain an information security management system (ISMS). Vakrangee information security management system (ISMS) is a set system used to manage and control information, risks in security as well as maintaining the integrity, protection and preservation and confidentiality of information. Vakrangee information security management system (ISMS) includes policies around access control, incident management, data protection, business continuity, physical security, human resources and technical procedures.

The ISO 27001:2013 certification process requires Vakrangee to:

- Thoroughly evaluate information security risks, including the impact of identified threats and vulnerabilities.
- Design and implement a comprehensive set of information security controls and other risk management measures to address security risks within its own cloud infrastructure as well as its corporate environment.
- Implement an overarching program to ensure that the information security controls meet the information security needs for both Vakrangee and its customers on an ongoing basis.

ISO27001:2013 is a strategic attainment for Vakrangee. Ultimately, Vakrangee want to continuously improve the services it offers to its customers, and proving its readiness to meet customers' compliance requirements. Vakrangee work continuously to ensure that it not only meets, but exceed the requirements of a growing organisation serving a demanding industry. Vakrangee have a huge appetite for ensuring that its customers receive the benefit of rigorous yet swift business processes and robust security systems. This is a major step forward in Vakrangee demonstrating its commitment to Information Security Management and will positively help in co-operating with its customers' compliance requirements.

Because we care we are security aware!!

ISO 20000-1:2011 - Vakrangee is ISO 20000-1:2011 (Service management system requirements) certified company since 2009 which verifies that Vakrangee meets international standards for IT service management systems. The ISO 20000-1:2011 certification confirms that Vakrangee IT management practices and processes are tightly controlled and applied consistently. Certification provides validation of high quality IT professional services to Vakrangee customers.

ISO 9001:2008 certification - Vakrangee is ISO 9001:2008 certified (Quality Management System) company since 1998, as we always put an effort to prove to our customers that we want to be the best at what we do and what we are committed to their needs. ISO 9001:2008 supplements is the best practices Vakrangee already follows, including the Capability Maturity Model Integration Level 3 (CMMI Level3) framework and the Project Management Body of Knowledge (PMBOK). The certification of compliance with ISO 9001:2008 recognizes that the policies, practices and procedures of our company ensure consistent quality in the product and services we provide to our internal and external clients and its associates. Certification enables a company to consistently provide products and services that meet customer and applicable statutory and regulatory requirements.
