C. Purpose and Rationale of the Scheme

- 1.1 Vakrangee Logistics Private Limited and Vakrangee Finserve Limited are wholly owned subsidiaries of Vakrangee Limited, the Transferee Company. All the three companies are part of the same group.
- 1.2 Accordingly, the Board of Directors of the Transferor Companies and the Transferee Company has decided to amalgamate the Transferor Companies together with their business and undertakings, with the Transferee Company, so as to achieve the following:
 - a) Consolidation of businesses of the Transferor Companies (all of which are wholly-owned subsidiaries of the Transferee Company and all engaged in related and supporting businesses) and the Transferee Company into a single entity which would result in the business activities to be carried out with greater focus and specialization thus, leading to the objective of achieving sustained growth.
 - b) Enable the shareholders of Vakrangee Limited to get direct participation in the business of its present wholly owned subsidiaries (being VLPL and VFL).
 - c) Simplified group and business structure;
 - d) Elimination of multiplicity of the companies leading to synergies in operations, achieving efficiencies and economies of scale and reduction in operational costs, overheads, administrative and other expenditure.
 - e) The amalgamation of the operations of the Transferor Companies into the Transferee Company will assist the Transferor Companies and its

management in meeting the funding through a common funding mechanism. This will result in effective management and utilization of funds for capital expenditure and working capital. The efficiencies generated through cash management of the merged entity and access to cash flow generated by the combined business can be deployed more efficiently to fund organic and inorganic growth opportunities and to maximize shareholders value.

- f) The proposed amalgamation is in line with the global trend to achieve size, scale, integration and greater financial strength and flexibility, in the interest of maximizing shareholders value. The merged entity i.e. the Transferee Company is likely to achieve higher long-term financial returns than that could be achieved by the Transferor Companies and the Transferee Company individually.
- g) The Transferor Companies believe that the financial managerial and technical resources, personnel, capabilities, skills, expertise and technologies of the Transferor Companies pooled in the merged entity will lead to increased competitive strength, cost reduction and efficiencies thereby significantly contributing to future growth.
- h) The amalgamation of the operations of the Transferor Companies into the Transferee Company will result in effective management and utilization of funds for capital expenditure and working capital. The efficiencies generated through cash management of the merged entity and access to cash flow generated by the combined business can be deployed more efficiently to fund organic and inorganic growth opportunities and to maximize shareholders value.
- i) Reducing time and efforts for consolidation of financials at group level.

1.3 Thus, as a whole, amalgamation of the Transferor Companies with the Transferee Company in terms of the Scheme will be beneficial for all the three companies, their shareholders, their creditors, employees, customers and all others concerned with the three companies.
